**Secretary of State Jesse White Announces Plan to Keep Driver Services Facility in Orland Park**  
*Facility to be located in the Township Building*

Illinois Secretary of State Jesse White has announced that his office will enter into an intergovernmental agreement with Orland Township to have a Driver Services facility in the Township building at 14807 S. Ravinia Ave. in Orland Park. An opening date will be announced in the near future.

The previous Driver Services facility in the Orland Park Village Hall was closed when the mayor made very clear that he did not want it there and demanded the Secretary of State's office find another location.

"I applaud Township Supervisor Paul O'Grady on this agreement which reaffirms my commitment to the people of Orland Park and the surrounding communities to bring the best possible service to the people in the area," said White. "It is unfortunate that the mayor's actions caused a disruption in local service, but we will move on in bringing convenient services to the people in the southwest suburbs."

White also thanked State Senator Bill Cunningham for helping coordinate the agreement between the Secretary of State's office and Orland Township.

"We are thrilled to partner with the Secretary of State's office to provide the Department of Motor Vehicle Express Services to the residents of Orland Township and the South Suburbs," said Township Supervisor Paul O'Grady. "The Secretary of State's office has had a long relationship within Orland Township and we are proud to continue providing these much needed services under our roof. It has always been my goal as Township Supervisor to meet the community needs through high-quality and convenient services and with this addition we're right on track."

"I want to commend Secretary White and Supervisor O'Grady for working to ensure that Orland residents maintain easy access to Secretary of State services," State Senator Cunningham said. "Repurposing space in an existing publicly-owned building is a low cost, commonsense solution that protects taxpayer dollars and improves government efficiency."
