Archives Stacks Workday

On Oct. 29, 2020, the State Archives conducted its second annual stacks workday. The theme this year was “The Purge: Archives Edition” due to much of the focus being on removing recently deaccessioned items from the stacks. Archives staff removed 512 cubic feet of deaccessioned records, identified 297 cubic feet of records that can be disposed of in the near future, and saved 47 cubic feet of storage space by shifting records in half-filled drawers. Participating in the day and dressed in “The Purge: Archives Edition” shirts were, Front Row: Eowyn Montgomery, Second Row: Jim Ladd, Tim Mottaz, Crawford Bealon, Lori Roberts, Bill Lear, and Cathy Popovich; Back Row: Alex Dixon, David Joens, Rochelle Joseph, Dana Huff and Stacey Skeeters.

Secretary of State commemorates Illinois State Archives’ centennial with new letterhead

To celebrate the centennial of the Illinois State Archives, the Illinois Secretary of State’s Communications Department designed a special logo to be used as the Archives’ letterhead and for other commemorative events during the 2021 centennial year.

Application deadline March 22

The Illinois State Historical Records Advisory Board (ISHRAB) is pleased to announce the 2021 Historical Records Preservation Grant program. Grants of up to $5,000 will be awarded to Illinois historical records repositories with funds provided by the National Historical Publications and Records Commission (NHPRC). Grants will be awarded to institutions that demonstrate need, both financially and programmatically, and that show commitment to developing and/or implementing projects that will lead to enhanced online presence and access to their records. These projects may include creating online finding aids; digitizing records and placing the digital content online; making an inventory of records or properly storing the records with the goal of preparing them for future online access; or placing information about the records on a blog, wiki page or Facebook. Eligible institutions may be public or private. Although any size institution may apply, preference will be given to those institutions with archival holdings of 500 cubic feet or less and/or two or fewer professional staff.

The logo to be used as the Illinois State Archives’ letterhead and for other commemorative events during the 2021 centennial year.

To celebrate the centennial of the Illinois State Archives, the Illinois Secretary of State’s Communications Department designed a special logo to be used as the Archives’ letterhead and for other commemorative events during the 2021 centennial year.

The deadline for submission is March 22. Grant award winners will be announced in June. For more information, application instructions and a list of previous grant funded projects, visit www.cyberdriveillinois.com (click Departments, Illinois State Archives, Illinois State Historical Records Advisory Board), or call 217-782-3492.
Illinois State Archives centennial (1921–2021): conservation lab

In June 2021, the Illinois State Archives will celebrate 100 years as an Illinois government agency. In anticipation of the centennial celebration, For The Record will feature articles about the history of its various departments of the Archives.

A main function of any archives is the repair of damaged documents so that these documents may be preserved and used. Over the course of 100 years, however, the way documents are mended has changed.

Although the Illinois State Archives has had a restoration laboratory since the building opened in 1938, according to a 1948 Illinois Libraries article written by Margaret Gross Norton, for many years the repair of manuscripts was assigned to various clerks. The clerk who received the documents generally handled the repair. Today, two professional conservators work in the second floor conservation lab.

The conservation lab is an essential aspect to the long-term care of documents stored within the Illinois State Archives. Many of the documents are in bad shape due to how they were stored at their previous agencies. Many were folded, stored in areas with no climate control or stored in metal drawers allowing rust to form, or exposed to water allowing mold to grow.

It falls to the conservation staff to use proven techniques to stabilize damaged documents and to help prevent any future issues from arising. The goal of all conservators is to use techniques to protect a document that can be undone later if necessary, as conservation technology improves and conservation theory changes.

An example of how conservation techniques have changed since the Archives opened is that conservators no longer use crepelin, a silk-like material pasted to the backs of documents. Crepelin stiffens a document, allowing it to be more safely handled. However, the paste attracts bugs and can cause the paper to become brittle to the point of cracking. It is also very difficult to reverse. In phasing out the use of this method in the 1940s, Ms. Norton also noted, “Though we found this method satisfactory in many ways, it requires considerable skill, is messy to work with (and so generally unpopular with staff), and is not permanent.”

The Archives phased out the use of crepelin and began using the Barrow Laminator, a machine that uses cellulose acetate and heat to apply a lamination to brittle documents. This provided the documents with stability and a longer life span. It also allowed a large number of documents to be conserved in a smaller amount of time; however, this method caused documents to become brittle and yellow.

Current conservation techniques include using hydration chambers to relax paper fibers, using archival quality paste and mending tissue to reattach broken paper fragments, and encapsulating documents to provide stability for safe handling. For severely damaged documents needing repair, the conservators at the Illinois State Archives use Japanese mending tissue made from plant fibers. The tissue is applied to damaged documents using a wheat starch paste mixed with distilled water. This method provides stability to a document, but more importantly, it allows the repairs to be removed if technology again changes or if unexpected problems arise from the long-term use of this method.

The ISHRAB is offering professional development scholarships to Illinois archivists and archival volunteers to attend an archival workshop/seminar of their choice in Illinois (or an online professional archival development course). Awards are available for up to $200 per applicant, per fiscal year, and may be used toward the cost of registration, housing, and travel to the event. It is a reimbursable award. Scholarships will be awarded on a first-come basis until the funding is exhausted. Complete information and an application form can be found at www.cyberdriveillinois.com (click Departments; Illinois State Archives; Illinois Historical Records Advisory Board).

### ISABA/ISHRAB member appointments

Secretary of State Jesse White recently appointed Cynthia Fife-Townsel of the Chicago Public Library, Cortez Gillespie of the Illinois Office of the Comptroller, Raquel Flores-Clemmons of Chicago State University and Kelsey O’Connell of Northwestern University Libraries to the Illinois State Archives Advisory Board/Illinois Historical Records Advisory Board. He also re-appointed Peggy Glowacki of the University of Illinois at Chicago and Julie Wrobleswki of the Chicago History Museum to the board. At its October 2020 meeting, the board selected Ms. Wrobleswki to serve as chair and Ms. Glowacki to serve as vice chair. For a complete listing of ISABA/ISHRAB members and their contact information, visit www.cyberdriveillinois.com (click Departments; Illinois State Archives; Illinois State Historical Records Advisory Board).

DATES AND REMINDERS

The Illinois State Archives recently received a $80,000 NHPRC grant to scan and place online photos from its Doc Helm photo collection. Pictured: Contractual worker Kaytlin Jacoby places negatives from the Doc Helm collection into acid free holders and enters descriptive information into a database.

On Oct. 29, 2020, the State Archives conducted its second annual stacks workday. The theme this year was “The Purge: Archives Edition” due to much of the focus being on removing recently deaccessioned items from the stacks. Archives staff removed 512 cubic feet of deaccessioned records, identified 297 cubic feet of records that can be disposed of in the near future, and saved 47 cubic feet of storage space by shifting records in half-filled drawers. Participating in the day and dressed in “The Purge: Archives Edition” shirts were, Front Row: Eowyn Montgomery, Second Row: Jim Ladd, Tim Mertac, Crawford Bealon, Lori Roberts, Bill Lear, and Cathy Popovich; Back Row: Alex Dixon, David Joens, Rochelle Joseph, Diana Huff and Stacey Skeeters.

Doc Helm Project Continues

Applications are being accepted for the 2021 Historical Records Preservation Grant Program. Grants of up to $5,000 will be awarded to Illinois historical records repositories with funds provided by the National Historical Publications and Records Commission (NHPRC). To review the grant guidelines, visit www.cyberdriveillinois.com (click Departments, Illinois State Archives, Illinois State Historical Records Advisory Board), or call 217-782-3492.

2021 historical records preservation grants

Application deadline March 22

The Illinois State Historical Records Advisory Board (ISHRAB) is pleased to announce the 2021 Historical Records Preservation Grant Program. Grants of up to $5,000 will be awarded to Illinois historical records repositories with funds provided by the National Historical Publications and Records Commission (NHPRC). Grants will be awarded to institutions that demonstrate need, both financially and programmatically, and that show commitment to developing and/or implementing projects that will lead to enhanced online presence and access to their records. These projects may include creating online finding aids; digitizing records and placing the digital content online; making an inventory of records or properly storing the records with the goal of preparing them for future online access; or placing information about the records on a blog, wiki page or Facebook. Eligible institutions may be public or private. Although any size institution may apply, preference will be given to those institutions with archival holdings of 500 cubic feet or less and/or two or fewer professional staff.

The deadline for submission is March 22. Grant award winners will be announced in June. For more information, application instructions and a list of previous grant funded projects, visit www.cyberdriveillinois.com (click Departments, Illinois State Archives, Illinois State Historical Records Advisory Board), or call 217-782-3492.
